+91 7903262197 | anshuman.jha325@gmail.com | LinkedIn | GitHub

TECHNICAL SKILLS

Languages: Python, SQL, TypeScript, JavaScript, C++

Backend: FastAPI, Node.js, REST APIs, Prisma ORM, JWT Authentication, RBAC, API Design, OpenAPI

Frontend: React.js, Next.js, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB

Cloud & Tools: Docker, Docker Compose, Git, GitHub, GitHub Actions, AWS, Vercel, Firebase

AI & Data: LangChain, Gemini, Pandas, NumPy, Databricks, ChromaDB

Concepts: Database (Modeling, Normalization, Indexing), SQL-Query Optimization, Authentication & Authorization

WORK EXPERIENCE

Sharelog

Remote

Full Stack Developer

Mar 2026 – Present

- Designed scalable backend services using FastAPI, Node.js, PostgreSQL and Prisma ORM for enterprise systems.
- Built 20+ REST APIs supporting CRM, invoicing, authentication, reporting and workflow automation.
- Designed normalized schemas, implemented indexing and optimized SQL queries for transactional workloads.
- Integrated banking APIs with secure webhooks, async processing, background jobs and retry mechanisms.
- Implemented JWT authentication, RBAC, API security and role-based authorization across enterprise modules.
- Collaborated using Git, GitHub Actions and Docker Compose to deliver scalable production features.

Shopdeck

Bangalore

Growth Consultant

Dec 2025 – Feb 2026

- Queried large merchant datasets using SQL to identify revenue optimization opportunities.
- Built Excel dashboards and analytical reports supporting product and business decisions.
- Automated recurring data analysis workflows and improved operational reporting efficiency.
- Collaborated with cross-functional teams to deliver data-driven business insights.

PROJECTS

Enterprise NLP-to-SQL Platform | *FastAPI, LangChain, MySQL*

- Developed a FastAPI backend exposing REST APIs for natural language to SQL conversion.
- Built schema-aware retrieval using LangChain, embeddings and vector search.
- Integrated Gemini LLM using prompt engineering for optimized SQL generation.
- Designed modular backend architecture supporting scalable production deployment.

Enterprise Financial SaaS Platform | *Next.js, React, PostgreSQL, Prisma, AWS*

- Developed enterprise financial modules including CRM, invoicing, reconciliation, RBAC and reporting.
- Designed PostgreSQL schemas using Prisma ORM for scalable financial operations.
- Built secure REST APIs with authentication, workflow automation and role-based access control.
- Integrated financial APIs, webhook processing and background job execution.
- Developed 4 dashboards and reporting modules for operational and financial analytics.

Document Intelligence OCR System | *Python, OpenCV, OCR*

- Developed an OCR pipeline extracting structured data from enterprise documents.
- Generated structured JSON outputs for backend services and analytics pipelines.
- Improved document extraction accuracy through image preprocessing and OCR optimization.

EDUCATION

National Institute of Technology, Durgapur

West Bengal

Bachelor of Technology in Computer Science and Engineering

2021 – 2025
